

## LABEL REWINDER GLR-100 LABEL UNWINDER GLU-100

The GLR-100 Rewinder is designed to rewind labels from any label printer.

The GLU-100 Unwinder is designed to unwind labels from any label printer.

Compatible with all direct thermal and thermal trans-fer printers.

Electronic speed control will automatically synchronize winding speed to the speed of your printer.

Fast rewind speed up to 610mm per second.

Easily handles labels up to 228mm wide.

Winds labels face in or out.

Passive winding without disturbing print or barcodes

on the label.

The GLR-100 is the perfect size for standard production runs.

Supplied with standard 76mm core holders and 305mm outer disks.

Optional core kits for 25mm, 38mm, and a coreless adapter.

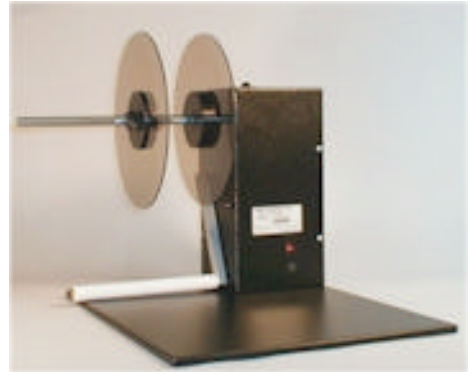

Auto-switching universal power supply means the GLR-100 Label Rewinder and GLU-100 Label Unwinder can be used anywhere in the world.
